

**Our map will not only help you get around, but also introduce you to places where children can have fun, play, and even learn something interesting. But first – a few practical tips for parents:**

- The easiest way to get around Prague with children is by public transportation. The transport network is dense and well-connected. Children up to age 10 ride for free (with proof of age); children aged 10 to 15 pay reduced fares. More at [dpp.cz](#).

- Buses and trams on the main lines are largely barrier-free; you can usually wait for the next low-floor vehicle. Some metro stations do not yet have barrier-free entrances.

- Public toilets are located in metro station vestibules, but changing tables are rare. They are, however, common in shopping mall restrooms and baby-friendly businesses.

- Most places offer discounts on admission for children, and the youngest (generally under age 3) usually do not pay at all. Family rates are also common. Children and students up to age 26 have free admission to all permanent exhibitions at Prague's National Gallery.
